CLOVERPORT, KY., WEDNESDAY, APR. 20, 1910

The members of the Kentucky Press Association will hold their forty-first annual meeting in the mountains again this year. Midlesboro extended such a cordial, urgent invitation that the Executive Committee could not refuse, and decided to meet there June the twentieth. The editors all over the State are delighted to know that Mr. Tom Underwood, President of the Association, is regaining his health and is planning to be with them.

Have you painted that mail box and post of yours white, as requested by the postoffice department, and put up that sign board at the road crossings? Here's a proposition: The News will furnish the paint and a brush, send a man along to help do the work, if the owners of those boxes will furnish a horse and buggy and a man to go over the route. This proposition is open to any route in the county. Don't all speak at once.

Down at the shops is being built one of the best and most substantial round houses of its size in the country. When finished it will be a credit to any railroad or town. Besides this splendid house, we understand that \$30,000 is soon to be expended in new buildings for the shops. All things come to those who wait.

Our people can do anything they want to do when they have a mind to. The thing to do next is to add a system of water works to the ice plant. Don't fool away money buying fire engines. What good is a fire engine without water? Water, water, water is the cry when a fire comes. Get the water first!

President Taft, and many of his leading lights in Republican politics, have been quite busy for some time getting about over the country trying to hold the old party together. They are very much alarmed over the gains the Democrats have made in recent elections in Republican States.

## HARNED.

Farmers are busy planting corn. Mrs. Sam Tucker, who has been sick for some time, is improving.

A. R. Kincheloe, of Hardinsburg, was in our town Thursday.

Accidents will happen, but the best regulated families keep Dr. Thomas' Electric Oil for such emergencies. It subdues the pain and heals the hurts.

The Democrats will win in the next State election, and Col. Ben Johnson seems to be in the lead for Governor. McCreary, like many other good old Democrats in the State, has had his day. The people want the young men to the front, especially those who have the ability to do things.

Wm. J. Bryan has reached New York from a trip through South Africa. Leading politicians approached him as to his attitude on the Presidential situation, but he declined to say anything. The Nebraska statesman is not in it this time.

Mayor Barry worked hard for the ice plant, and it is a go. Cloverport will add water works later—a thing the city very much needs.

The people of Tennessee are very much incensed over the pardon of Col. Duncan B. Cooper, the slayer of Senator Carmack.

You can see now what a real live working mayor can do for a town. We have one in Mayor Barry.

You never know how much business is being done on the Branch until a train is delayed a few hours.

Oh, my garden! It's having the time of its life right now battling with snow, rain and sleet.

The recent cold weather has injured the fruit crop throughout the country.

The "pure food law" is designed by the Government to protect the public from injurious ingredients in both foods and drugs. It is beneficial both to the public and to the conscientious manufacturer. Ely's Cream Balm, a successful remedy for cold in the head, nasal catarrh, hay fever, etc., containing no injurious drugs, meets fully the requirements of the new law, and that fact is prominently stated on every package. It contains none of the injurious drugs which are required by the law to be mentioned on the label. Hence you can use it safely.
